Guide to Consultants 2011

GUIDE TO CONSULTANTS 2011

This *Guide to Consultants* is presented as a service to people interested in agricultural/ biological engineering assistance. This listing is not an offer or advertisement to provide engineering services in any state or jurisdiction where the professional engineer or professional engineering firm is not registered/ licensed. All information was provided by the listed consultant. The American Society of Agricultural and Biological Engineers (ASABE) assumes no responsibility for the validity of the qualifications listed or the consulting services performed.

Listings for both registered professional engineers and consultants who are not registered engineers are included. In the United States the registration/licensing of professional engineers is vested in the states/territories. Administration of the relevant laws governing the practice of engineering is assigned to engineering boards. The primary role of these regulatory boards is to protect the life, health, property, and welfare of the public and to ensure that unqualified individuals do not practice engineering. Many other countries also have laws and regulations pertaining to the practice of engineering. When selecting a consultant, it is recommended that any jurisdictional registration/licensing requirements be identified for specific services.

In the following listings, the date after the specialty description is the professional engineer's initial registration date. The state(s) or country in which the consultant is registered follows the date. The consultant's availability is given on the next line, including geographic area of service.

Indication of registration in a single state does not imply that a professional engineer cannot be registered in other states. Most state engineering registration laws and rules are patterned after guidelines prepared by the National Council of Examiners for Engineering and Surveying, P.O. Box 1686, Clemson, SC 29633, USA. Most states have laws that permit a professional engineer to become registered in other states, either temporarily or permanently, without re-examination. Consideration of the consultant should be on the basis of the consultant's qualifications and not on where registered, because many consultants can obtain registration in other states or jurisdictions.

Consultants who are not registered professional engineers may have qualifications and expertise in areas other than those requiring professional registrations. Prospective clients should always confirm, through independent sources, the qualifications of all consultants for the services to be performed.

Registered Engineer Listings

Leonard L. Bashford, Ph.D., P.E.

2487 McKelvie Road
Seward, NE 68434, USA
402-643-6833
KLBLB@windstream.net

Engineering and performance evaluation services for farmstead equipment, agricultural machinery, and tractors. Expert witness testimony for product liability issues including product safety and performance.

Initial date of registration 1968: AR, NE
Available full-time; Domestic

Michael Brugger, P.E.

North Point Engineering
10890 Angling Road
Wooster, OH 44691
cell: 330-466-0114
mike.brugger@gmail.com

Consulting engineering and expert witness services for livestock facilities, greenhouses, and fruit and vegetable storage site and building design; handling and storage of manure; nutrient management; permitting; odor issues; construction observation and certification. International experiences.

Initial date of registration 1978: WI, OH, IN
Available full-time; Domestic and International

William A. Cook, P.E., L.S.

Neosho Engineering & Technology
20475 Udall Rd.
Stark, KS 66775, USA
620-754-3500

Boundary surveying, topographic surveying, construction staking, land use planning, preliminary planning for water control structures, real estate development, and community planning.

Initial date of registration 1981: KS
Available full-time; Domestic

Daniel L. DeHaan, P.E.

DeHaan, Grabs & Associates, LLC
P.O. Box 522
Mandan, ND 58554, USA
701-663-1116
Fax: 701-667-1356
danddga@btinet.net
www.dgaengineering.com

Consulting services for planning, design, construction monitoring, and permitting of agriculture production facilities. Services include site investigation, preliminary layouts, engineering surveying, facility design, regulatory permit application, construction staking and construction monitoring for swine, beef, dairy poultry bison, and other livestock facilities, soil and water conservation, grain handling facilities, and irrigation design.

Initial date of registration 1994: KS, OK, NE, SD, ND, IA, MT, ID, TX, IL
Available full-time; Domestic and International

Robert O. Diedrichs, P.E.

Diedrichs & Associates, Inc.
5714 Nordic Drive, Suite 300
Cedar Falls, IA 50613, USA
319-266-0549
rdiedrichs@iowaengineer.com
www.iowaengineer.com

Integrated product development services. Engineering, design, prototype build and testing of agricultural and construction vehicles, implements, attachments, machines and systems. Problem solving and analysis related to performance, manufacturing cost, and operator interface. Evaluate concepts for feasibility and estimate costs of design and development. 24,000 square foot experimental shop for building and testing machines.

Initial date of registration 1964: IA
Available full-time; Domestic and International

Registered Engineers

Ivan D. Droessler, P.E.

Kuehl & Payer, Ltd.
1725 North Lake Ave
Storm Lake, IA 50588, USA
712-732-7745
Fax: 712-732-6293
idroessler@kpltd.com
www.kpltd.com

Over twenty-seven years of professional engineering design services include: rural/urban drainage, animal waste management systems (swine, beef, and poultry) and solid waste management. Extensive experience and expertise for rural drainage district procedures and improvements. Special expertise is offered for flood control, wetlands analysis, mitigation, and restoration consulting services.

Initial date of registration 1984: IA
Available full-time; Domestic

Donald D. Etler, P.E.

Kuehl & Payer, Ltd.
1609 US Hwy 18E
Algona, IA 50511 USA
515-295-2980
Fax: 515-295-3176
detler03@kpltd.com
www.kpltd.com

Three decades of professional consultation services focused upon the planning, design, management and regulation of water resources: hydrology, agricultural drainage, urban drainage, impoundments and wetlands. Appeal assistance for farm program wetland determinations and wetland-related violations. Clean Water Act Sec 404 permits. Expert witness.

Initial date of registration 1976: IA, MN
Available full-time; Domestic

James L. Evans, P.E.

Maurer-Stutz, Inc.
7615 North Harker Dr.
Peoria, IL 61615, USA
309-693-7615
Fax: 309-693-7616
jlevans@maurerstutzinc.com
www.maurerstutzinc.com

Over 35 years experience in resources conservation engineering. Consulting, planning and design services for drainage, earth dams and pond/lake lining, stream protection, wetlands design, rural and urban erosion control practices, livestock production facilities and manure and wastewater handling and storage. Expert witness testimony. Instructional presentations.

Initial date of registration 1980; MO, IL
Available full-time; Domestic

Terry L. Feldmann, P.E.

Maurer-Stutz, Inc.
7615 N. Harker Drive
Peoria, IL 61615, USA
309-693-7615
Fax: 309-693-7616
tlfeldmann@maurerstutzinc.com

Consulting, evaluation, planning, and design services for livestock and poultry production facilities including expansion, site development, feasibility studies, renovation, ventilation and heating, environmental monitoring, product development, field research, manure handling/storage/treatment, permitting, nutrient management, odor assessments, equipment/material specifications and earthwork quantities. Expert witness testimony. Experience includes swine, dairy, turkeys, broilers, and beef.

Initial date of registration 1998: IL, IN, AR
Available full-time; Domestic and International

Gregory G. Grabs, P.E.

DeHaan, Grabs & Associates, LLC
P.O. Box 522
Mandan, ND 58554, USA
701-663-1116
Fax: 701-667-1356
greg@dgaengineering.com
www.dgaengineering.com

Consulting services for all species of production livestock facility design, including site assessment and feasibility studies; topographical surveying; preliminary designs, geological investigation; site development plans; regulatory submittal and permitting; construction bidding, staking, management, inspection, and certification. Experience also includes watershed modeling, drainage, and soil and water conservation design.

Initial date of registration 1995: KS, CO, MO, WY, SD, ND, WI, NE, MN, NM
Available full-time; Domestic and International

Ted A. Gribble, P.E.

Five-G Consulting
6355 Lamar Road
Reno, TX 75462, USA
903-783-9995
Fax: 903-784-2317
ted@fiveg.com
www.fiveg.com

Consulting and engineering for livestock facilities. Specialize in dairy and food processing waste systems. Experience worldwide in all climates.

Initial date of registration 1998: OR, NE, HI, NY, PA, TX, UT, NC
Available full-time; Domestic and International

Dale M. Gumz, CSP, P.E.

Inductive Engineering
10805 230th Street
Cadott, WI 54727-5406, USA
715-289-4721
dgumz@centurytel.net
www.inductiveengineering.net

Engineering consultant for agriculture, construction, consumer products, and specialty machines. Forensic and safety services include: accident reconstruction, safety responsibilities, human factors, manufacturing processes, mechanical and electrical, occupational safety, product liability, product and machine design analysis. Experience includes a farm background and safety and design engineering since 1970, manufacturing, safety, and forensic engineering. NCEES, CSP.

Initial date of registration 1975: IL, IA, MO, WI
Available full-time; Domestic and International

Rich Hackner, P.E.

GDS Associates, Inc.
440 Science Drive, Suite 400
Madison, WI 53711, USA
608-273-0182
Fax: 608-233-7262
rich.hackner@gdsassociates.com
www.gdsassociates.com

GDS Associates is nationally recognized for its agricultural energy consulting and energy efficiency services. Services include energy audits, program design and implementation, renewable assessments, and energy assessment tools. GDS Associates' clients include rural electric cooperatives, investor-owned utilities, state and federal agencies, and individual agricultural producers and food processors.

Initial date of registration 1987: WI
Available full-time; Domestic

Gary Huitink, P.E.

Huitink Consultants, Inc.
8224 Leatrice Dr.
Little Rock, AR 72227-3918, USA
501-454-4466
Fax: 501-227-4388
huitink@sbcglobal.net

Engineering analysis, consultation, performance evaluation and feasibility assessment for agricultural machinery, cotton gins and certain grain handling, fertilizer and livestock equipment. Consulting, design, research, teaching, developing safety programs, compliance with standards and courtroom experience. Forensic expertise with personal injury, wrongful death and products liability litigation.

Initial date of registration 1978: AR
Available full-time; Domestic and International

Registered Engineers

David R. Hundebly, P.Eng.

Hundebly Consulting Ltd.
RR 4, Box 198
Saskatoon, SK S7K 3J7, Canada
306-242-6858
hundebly@sasktel.net
www.hundebly.com

Inventing, consulting, and forensic engineering services specializing in global design and analysis of agricultural implements and machinery (50 patents). "Expert witness" regarding dry land and row crop equipment in North America, Australia, and Europe. "Prior art" research and patent litigation courtroom experience. Assistance concerning safety evaluation and standards application. Actively involved in farming operation.

Initial date of registration 1993: SK (Canada)
Available full-time; Domestic and International

Richard W. Job, P.E.

Richard W. Job and Associates, LLC
770 Reese Street
Liberty, MO 64068, USA
816-415-8387
rich.w.job@sbcglobal.net

Managing the product design and development process; product safety evaluation process; standards application and compliance.

Initial date of registration 1985: WI
Available full-time; Domestic and International

Larry R. Johnson, P.E.

Oakwood Engineering LLC
W7975 Oakwood Lane
Fort Atkinson, WI 53538, USA
920-650-3371
ljohnsonwi@gmail.com

Consulting services for agricultural, construction, food processing, and outdoor power equipment. Services include product safety program development, safety evaluations of equipment and product documentation, claims management, and expert witness testimony. Litigation experience in personal injury, product performance, contracts, trade dress, patent and trademark issues. Over 30 years experience in operations and engineering management.

Initial date of registration 1974: MI, WI
Available part-time; Domestic and International

Joseph G. "Jake" Martin III, P.E.

Agricultural Engineer
6024 S.W. 89th Terrace
Gainesville, FL 32608, USA
352-371-4655
jake@dairydesign.com
www.dairydesign.com

Consulting engineering services for complete dairy facility evaluation, layout, and design. Services provided include: site selection and evaluation; preliminary facility layouts; earthwork modeling and design; dairy expansion evaluation; layout and design of milking centers, housing facilities, working areas, feed centers, and youngstock facilities. Complete waste management system evaluation, layout, and design.

Initial date of registration 1984: LA, GA, FL, KS, AZ, PR, CO, IA, VA, TX, KY, SD, OH, SC, NC
Available full-time; Domestic and International

James M. Miller, Ph.D., P.E.

J.M. Miller Engineering, Inc.
2392 Fuller Court
Ann Arbor, MI 48105, USA
734-662-6822
Fax: 734-747-9712
miller@millerengineering.com
www.millerengineering.com

Agricultural, Chemical, Mechanical, Forensic Engineers. Michigan, Idaho, Oregon offices. Expertise areas: hay, crop, grain harvesting/storage, dairy, food processing safety; tractor, implement, harvester, agricultural chemical safety; farm, roadway/highway accident reconstruction; equine/cattle accidents; slips, falls – vehicle, ladder; operator manuals, labels, warnings design; OSHA compliance; irrigation, hydroelectric, wind, renewable energy, systems design.

Initial date of registration: MI, ID, OR
Available full-time; Domestic

Rodney M. Nohr, P.E.

NOHR Engineering Co., LLC
Yankton, South Dakota 57078-4344, USA
605-665-1214
Fax: 605-665-8060
nohr@nohengineering.com
www.nohengineering.com

Bulk materials - Grain and Feed Storage - Handling and Process Systems including bins, silos, docks and equipment – Agricultural, Commercial and Residential Structures, Vehicles, Equipment and Processes - Failure, Cause and Origin Inspections, Opinions and Reporting.

Initial date of registration 1976: CO, AZ, AR, ID, IN, IA, KS, LA, ME, MI, MN, MS, MO, MT, NE, NM, NH, ND, OH, OK, SD, TX, VT, WI, WY

Available full-time; Domestic and International,
Passport current

Richard L. Parish, Ph.D., P.E.

Richard L. Parish, PE, LLC
21135 Highway 16
Amite, LA 70422, USA
985-748-7019
Fax: 985-748-3813
parish@agmachineryengr.com
www.agmachineryengr.com

Forensic engineering: product safety/ performance/evaluation involving agricultural, grounds maintenance, and lawn/garden equipment. Experience with a wide range of agricultural and horticultural equipment. Past cases in patents, personal injury, wrongful death, product performance, advertising. Over forty years experience in engineering, engineering management, research, teaching, extension, and consulting.

Initial date of registration 1973: OH
Available full-time; Domestic and International

Registered Engineers

Jonathan C. Popp, P.E.

Popp Engineering, Inc.
2710 Ford Street
Ames, IA 50010, USA
515-232-6118
Fax: 515-232-8814
jpopp@poppengineeringinc.com
www.poppengineeringinc.com

Professional engineering and project management services are provided to the seed and related industries. These services encompass renovation and new construction, specializing in air systems, dust control, and seed drying systems. All phases of projects from problem analysis and design to equipment procurement and construction management are provided to customers.

Initial Date of Registration 1993: IA, IL, MO, NE
Available full-time; Domestic

Len Ring, P.Eng.

Ring Irrigation Engineering
19 Fairmont Park Lane South
Lethbridge AB T1K 7H6, Canada
403-382-0928
LRing@telus.net

Provides consulting services to farmers, irrigation & water districts, First Nations, government agencies and other consultants. Over 40 years of Canadian, US and international experience in irrigation and water resources specializing in on-farm & turf/landscape irrigation systems, irrigation system modernization, pipeline & pumpsite design, irrigation district governance, water & energy conservation and water & irrigation legislation.

Initial date of registration: 1970: AB and 2011: SK (Canada)
Available part-time; Domestic and International

Timothy R. Royer, P.E.

Timber Tech Engineering, Inc.
22 Denver Road, Suite B
Denver, PA 17517, USA
717-335-2750
Fax: 717-335-2753
trr@timbertecheng.com
www.timbertecheng.com

Consulting engineering and design services for timber frame and light wood constructed buildings. Design of manure containment structures and agricultural engineering. Concrete, masonry, and steel design. Also, building code review and computer aided drafting services.

Initial date of registration 1989: PA, CT, DE, FL, GA, IN, IA, KY, MA, MI, MN, MO, MS, MD, NJ, NY, NC, OH, SC, TN, UT, VA, WI, WV, WY
Available full-time; Domestic

Ralph Shirley, P.E.

TEST, Inc.
13776 Gunsmoke Road
Moorpark, CA 93021, USA
805-990-1908
RShirley@TestForensicEngineers.com
http://www.testforensicengineers.com/

Engineering and Machine Design
Agricultural, Construction, Lawn & Garden,
Design, Prototype, Test

Accident and Fire Forensic Investigation
Rollovers, entanglement, collision, fire/arson,
On and Off-Highway

Hazard Analysis, Warnings and Instructions
Human Factors, Operator Presence Sensing,
OSHA, CalOSHA Compliance
30+ Years experience.

Initial date of registration 1979: CA, MS
Available full-time, Domestic and International

Michael D. Shook, P.E.

Agri Process Innovations, Inc.
1012 E. 22nd Street
Stuttgart, AR 72160, USA
870-673-3030
Fax: 870-673-0808
mikeshook@apinnovations.com
www.apinnovations.com

Over 60 years combined engineering and project management experience, specializing in biofuels, rice, grain, soybean and vegetable oil processing. Services include licensed PE services, consulting, project management, procurement, turnkey contracting, plant audits, feasibility studies, concept development, complete processing plants. Complete biodiesel and corn fractionation facilities including engineering, consulting, and design.

Initial date of registration 1987: AR, NE, KS, MO, IA, LA, IL, MS, OK, TX, OH, AL
Available full-time; Domestic and International

Russ Stammer, P.E.

Bonestroo
6188 Rome Circle NW
Rochester, MN 55901, USA
507-529-6055
Fax: 507-282-3100
russ.stammer@bonestroo.com
www.bonestroo.com

Consulting engineering services for agricultural waste handling and storage, manure and nutrient management, permitting, site design, drainage, food processing waste and wastewater treatment, egg production wastewater treatment, odor control, biofiltration, planning, design, construction observation, construction management, spray irrigation design, and structure design. NRCS project experience.

Initial date of registration 1986: IA, MN, NE, WI
Available full-time; Domestic and International

Andrew W. Wedel, P.E.

McLanahan Corp.
200 Wall Street
Hollidaysburg, PA 16648, USA
814-695-9807
Fax: 814-695-6684
awedel@mcclanahan.com
www.mclanahan.com

Design of sand-laden manure conveyance, separation and storage systems. Services also include: troubleshooting flush and pump systems; integrating sand bedding with anaerobic digestion systems; procurement of grant funding; design and implementation of best management practices related to nutrient management plans; and laboratory analysis of bedding sand.

Initial date of registration 1999: PA, DE, MD, MI, NY, VA, WI
Available full-time; Domestic and International

Jerry L. Wille, P.E.

President, Curry-Wille & Associates,
Consulting Engineers, P.C.
425 S. 2nd Street / P.O. Box 1732
Ames, IA 50010, USA
515-232-9078
Fax: 515-232-9083
jwille@currywille.com
www.currywille.com

Consultation on agricultural experiment stations, commercial and private facilities housing livestock and poultry or storing grain and seed. Services include designs, plans, and specifications for the general, structural, mechanical, and electrical portions of the projects, including site development, utilities, and waste handling.

Initial date of registration 1977: IA, OK, IL, KS, OH, ID, CO, MO, MN, MS, WI, NC, KY, NE, PA, SD, IN, MI, NJ, AR, MD, TN, AL, GA, VA
Available full-time; Domestic and International

Peter Wyckoff, P.E., PWS

Ducks Unlimited, Inc.
1220 Eisenhower Place
Ann Arbor, MI 48108, USA
734-623-2000
Fax: 734-623-2035
pwyckoff@ducks.org
www.ducks.org/glaro/mitigation

Ducks Unlimited has a team of experienced and skilled biologists, mitigation specialists and engineers available to enhance and restore existing wetlands and streams, or create new wetlands. Ducks Unlimited provides turn key mitigation services from site identification to long term protection. Ducks Unlimited provides these services nationwide.

Initial date of registration 2008; MI
Available full-time; Domestic

Other Consultants

Nellie J. Brown MS., C.I.H.

Director of Workplace Health & Safety Programs
Certified Mold Assessor
Lead Programs Manager
Cornell University, ILR School
237 Main St., Suite 1200
Buffalo, NY 14203-2702 USA
716.852.4191
Fax: 716.852-3802
njb7@cornell.edu

Nellie Brown is a certified industrial hygienist, providing health and safety training and technical assistance. She developed a process failure and hazard assessment protocol for anaerobic digesters used for processing manure and generating electricity on dairy farms. Nellie serves on an ASABE committee developing a standard on manure pit ventilation.

Available part-time

Gary M. Hyde, Ph.D.

G.M. Hyde Consulting
750 SE Pheasant Run
Pullman, WA 99163-6414, USA
509-336-9143 (cell, preferred)
509-334-4812 (home)
gmhyde1@mac.com

Consulting in agricultural equipment and systems, especially for handling of fruits and vegetables. Includes expert witness work, especially relating to patent infringement.

Available part-time; Domestic

John M. Roach

Roach & Associates, LLC
856 N. Main Street
Seymour, WI 54165, USA
920-833-6340
Fax: 920-833-9851
jmroach@new.rr.com

Comprehensive consulting services for dairy facility evaluation, layout and design. Engineering services include surveying, drafting, soils investigations, site assessment, preliminary layout, construction management and final design. Environmental services include design of waste storage facilities, leachate collection, manure transfer and stormwater management systems. Business planning services includes expansion plans and operational management.

Available full-time; Domestic

GUIDE TO CONSULTANTS

WHAT A CONSULTING ENGINEER CAN DO FOR YOU

Because of their broad educational background, consulting agricultural engineers are a source of information on a wide variety of topics and can provide help with diverse technical problems. The design and management services agricultural engineers provide can be invaluable to small businesses without their own engineering departments, to agricultural producers and similar enterprises, and to large businesses or governmental agencies that want to supplement their in-house engineering departments. Consultants also can provide service to lending institutions, law firms, local units of government and planning boards, or to individuals that need expert witnesses or technical analysis.

What is a Consulting Engineer?

A consulting engineer is an independent contractor retained to work on a project-by-project basis. A consulting engineer may work alone or as a member of a consulting firm. Consulting engineers can provide a high level of technical expertise, direct personal service, and highly technical advice. Practicing consulting engineers must be licensed professional engineers in their state of residence and must qualify to obtain licensure in other states where they practice or provide services.

What Expertise Does a Consulting Agricultural Engineer Have?

Agricultural engineers have a diverse educational background that makes them knowledgeable about many subjects; additionally, they usually focus their expertise on one of the following areas:

- Aquaculture
- Biological Applications
- Energy
- Environmental Quality
- Food and Food Processing
- Forestry
- Information and Electrical Technologies
- Power and Machinery
- Safety
- Soil and Water Resources
- Structures and Environment

For more information, please visit www.asabe.org/membership/consulting.html.

CODE OF ETHICS OF ENGINEERS

The Fundamental Code of Principles

Engineers uphold and advance the integrity, honor and dignity of the engineering profession by:

- I. using their knowledge and skill for the enhancement of human welfare;
- II. being honest and impartial, and serving with fidelity the public, their employers and clients;
- III. striving to increase the competence and prestige of the engineering profession; and
- IV. supporting the professional and technical societies of their disciplines.

The Fundamental Canons

1. Engineers shall hold paramount the safety, health and welfare of the public in the performance of their professional duties.
2. Engineers shall perform services only in the areas of their competence.
3. Engineers shall issue public statements only in an objective and truthful manner.
4. Engineers shall act in professional matters for each employer or client as faithful agents or trustees, and shall avoid conflicts of interest.
5. Engineers shall build their professional reputation on the merit of their services and shall not compete unfairly with others.
6. Engineers shall act in such a manner as to uphold and enhance the honor, integrity and dignity of the profession.
7. Engineers shall continue their professional development throughout their careers and shall provide opportunities for the professional development of those engineers under their supervision.
