

# CALL FOR POSTER SESSION

## International Conference on **BIOLOGICAL SENSORICS:** Critical Technologies for Future Biosystems

### June 15-17, 2007

Don't miss this opportunity to present your work to leading engineers involved in agricultural equipment design, development, manufacturing and research. Proposals are welcomed from both industry and the public sector, including non-ASABE members. Student teams and individual students (both graduate and undergraduate) are encouraged to participate.

The poster session will be held on June 15-17, 2007 from 3:30pm to 5:00pm, in conjunction with an industry exhibition. The format of this session will allow the presenters to have direct one-on-interaction with their audience from maximum information exchange. Traditional ASABE papers are welcome, but not required.

Each poster presenter will be provided with an 8-foot wide by 4-foot deep poster board. Poster boards will be one neutral color. You can affix your presentation by push pins or thumb tacks. Detailed instructions and suggestions for poster preparation is available on the ASABE website: [www.asabe.org/meetings/index.html](http://www.asabe.org/meetings/index.html)
