

An invitation to join CSBE-SCGAB/ASABE ...

... the societies for engineering in agricultural, food, and biological systems.

Why should I become a student member?

Develop your professional identity. Start now to develop the professional contacts, leadership skills, and visibility needed to establish professional credentials.

Find employment opportunities.

Job openings are published monthly in *Resource* magazine and listed online at www.asabe.org through the ASABE Career Center. As a student member, you join a network of thousands of professionals working in industry, academia, and government.

Contribute to your profession. Your participation as a student member allows you to impact the future of engineering for agricultural, food, and biological systems. ASABE cannot effectively represent you, or others, without your participation.

Participate in ASABE's Online Mentoring Program. Having a mentor, who is established in their career, provides you with first-hand experience as to what to expect in the work world after graduation. The benefit of a mentor can give you practical career advice on the day-to-day issues you will face in the workplace.

Who is eligible for student membership?

To become a Student Member, you must be an undergraduate or graduate student with an interest in agricultural, food, or biological systems engineering or related technologies. Students residing in Canada become members of both the American (ASABE) and the Canadian (CSBE) Societies.

What's included in membership?

Canadian Biosystems Engineering. All papers will be published on the Web as they are peer reviewed and accepted. Members will have access by password at no charge. Printed copies will be available at the end of the year for an additional fee.

Resource: Engineering & Technology for a Sustainable World. This magazine reports on technologies affecting engineering for agricultural, food, and biological engineering. Available electronically unless hard copy is requested.

The CSBE-SCGAB Newsletter, published four times yearly, reports regional events, commentaries, and notices for meetings, call for papers, and other current items of interest.

Inside ASABE. An electronic newsletter delivered monthly reporting activities, meetings, awards, and opinions of the Society. It will help you learn more about your colleagues in the professional network of ASABE.

Generous discounts on publications, standards, textbooks, meetings and specialty conference registration.

Student registration rates for annual international meetings.

Electronic access to ASABE. All ASABE technical information including journals, standards, meeting and conference papers, textbooks and monographs are published in both print and Web format. This currently represents over 85,000 pages, with 15,000 pages added each year, available to you as a benefit of membership. You may also register for meetings and conferences online as well as view the *ASABE Member Roster*.

How much are dues?

Student dues are \$30.00 (for all, or part, of the school year). Benefits begin with payment of dues. Please pay in Canadian dollars and send to CSBE-SCGAB.

How do I join?

Students should complete the information on the reverse side and mail with payment to CSBE-SCGAB.

How do I transfer from student membership to full membership?

Transfer to full membership can only occur when a current student member notifies headquarters of graduation and provides a current mailing address. To qualify for two years of full membership at the discounted rate, please keep us advised of your current address. Transfer to full membership at the student rate is only available the first two years after graduation.
