- 7:00** ASABE Chicago Section Meeting

COST: \$10 Members / Non-Members / Guests
\$5 Students
Guest Welcomed!

K&C Machining, Inc. is a precision contract machining company specializing in collaborative manufacturing with milling, turning, and Integrex capabilities. The operation is structured for meeting the challenges of both rapid turnaround low volume parts and prototypes, while maintaining the ability to quickly ramp up for high volume production.

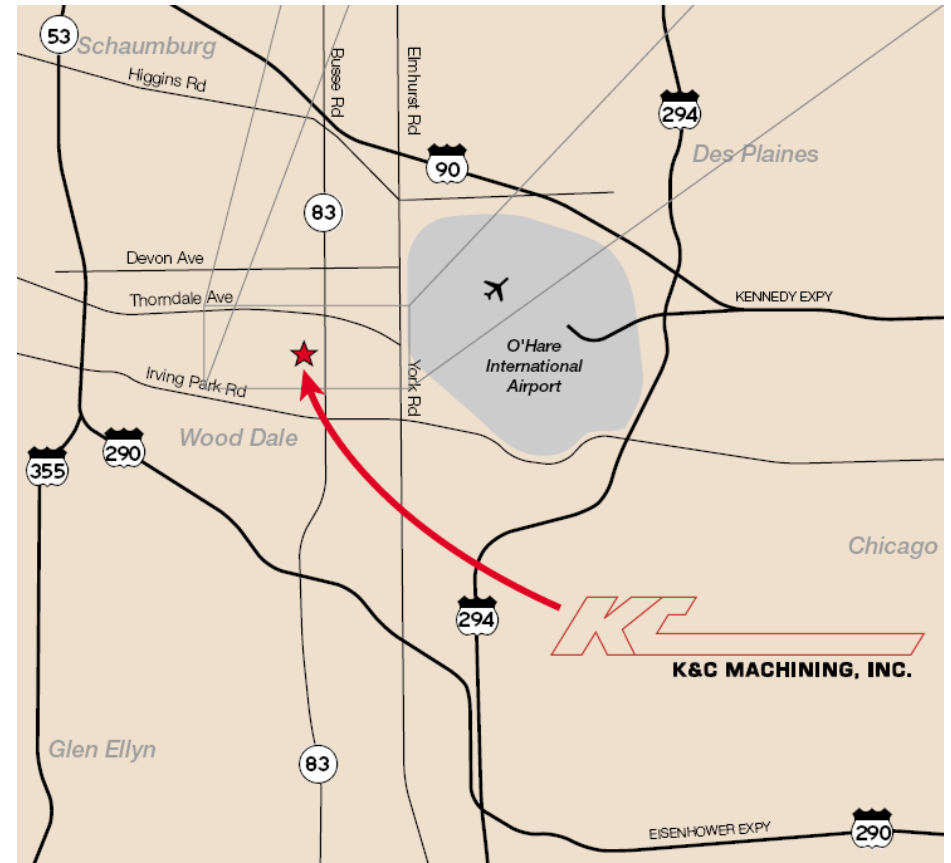

David Anderson is an ASABE member with over 30 years manufacturing industry experience. He has a BS in Agricultural Engineering and a MBA from University of Illinois. David has several U.S. patents and extensive experience in manufacturing, new product development and engineering computer tools.

DIRECTIONS & MAP:

K & C Machining is located on Balm Ct, just off (west) of Edgewood Ave. This is about 0.6 miles south of Thorndale Ave or 0.2 miles north of Forster Ave and about ½ mile west of Route 83.

There are limited parking spaces in the lot behind the building. If you park on the street, please park on the North side to avoid a parking ticket.

Attention Professional Engineers: This meeting will count for 1.0 PDH (Professional Development Hours.) A signed receipt from ASABE will be available when you pay your admission.
