

# Groundsmaster® 7200 Polar Trac™

The Groundsmaster® 7200 with Polar Trac™ winter conversion is a zero-radius-turn (ZRT) rotary mower in summer that converts to an efficient snow removal machine in winter. It is the only track-convertible ZRT mower on the market. The Polar Trac™ is designed to increase productivity by providing excellent maneuverability and a safe and comfortable operator environment. The spacious ROPS-certified cab offers large windows for clear visibility of attachments and surroundings. The twin-stick operation, easy two-pedal attachment controls, and deluxe suspension seat ensure operator comfort and reduced fatigue. The Polar Trac™ is ready for all winter conditions with a heated hard cab, innovative rubber track system, and quick-connect attachments.
