#### **ASABE TO REVISE NOMENCLATURE FOR EROSION-CONTROL PLANNING**

ST JOSEPH, MICHIGAN— The American Society of Agricultural and Biological Engineers (ASABE) has begun the revision of ASAE S422, Mapping Symbols and Nomenclature for Erosion and Sediment Control Plans for Land Disturbing Activities.

The revision will review and update nomenclature used in developing plans for erosion and sediment control. Additional experts to review and assist in the update are welcome to participate. Membership in ASABE is not required. Those wishing to participate are asked to contact Jean Walsh, ASABE standards administrator, at [walsh@asabe.org](mailto:walsh@asabe.org) for more information.

ASABE is recognized worldwide as a standards developing organization for food, agricultural, and biological systems, with more than 280 standards currently in publication. Conformance to ASABE standards is voluntary, except where required by state, provincial, or other governmental requirements, and the documents are developed by consensus in accordance with procedures approved by the American National Standards Institute. For information on this or any other ASABE standard, contact Scott Cedarquist at 269-932-7031, [cedarq@asabe.org](mailto:cedarq@asabe.org). A current listing of all ASABE standards projects can be found on the ASABE web site at [www.asabe.org/projects](http://www.asabe.org/projects).

ASABE is an international scientific and educational organization dedicated to the advancement of engineering applicable to agricultural, food, and biological systems. Further information on the Society can be obtained by contacting ASABE at (269) 429-0300, emailing [hq@asabe.org](mailto:hq@asabe.org) or visiting [www.asabe.org/](http://www.asabe.org/).
