GUIDE TO CONSULTANTS 2018

This *Guide to Consultants* is presented as a service to people interested in agricultural and biological engineering assistance. This listing is not an offer or advertisement to provide engineering services in any state or jurisdiction where the professional engineer or professional engineering firm is not registered/licensed. All information was provided by the listed consultant. The American Society of Agricultural and Biological Engineers (ASABE) assumes no responsibility for the validity of the qualifications listed or the consulting services performed.

Listings for both registered professional engineers and consultants who are not registered engineers are included. In the United States, the registration/licensing of professional engineers is vested in the states/territories. Administration of the relevant laws governing the practice of engineering is assigned to engineering boards. The primary role of these regulatory boards is to protect the life, health, property, and welfare of the public and to ensure that unqualified individuals do not practice engineering. Many other countries also have laws and regulations pertaining to the practice of engineering. When selecting a consultant, it is recommended that any jurisdictional registration/licensing requirements be identified for specific services.

In the following listings, the date after the specialty description is the professional engineer's initial registration date. The state(s) or country in which the consultant is registered follows the date. The consultant's availability is given on the next line, including geographic area of service.

Indication of registration in a single state does not imply that a professional engineer cannot be registered in other states. Most state engineering registration laws and rules are patterned after guidelines prepared by the National Council of Examiners for Engineering and Surveying, P.O. Box 1686, Clemson, SC 29633, USA. Most states have laws that permit a professional engineer to become registered in other states, either temporarily or permanently, without re-examination. Consideration of the consultant should be on the basis of the consultant's qualifications and not on where registered, because many consultants can obtain registration in other states or jurisdictions.

Consultants who are not registered professional engineers may have qualifications and expertise in areas other than those requiring professional registrations. Prospective clients should always confirm, through independent sources, the qualifications of all consultants for the services to be performed.

Registered Engineers

Gayle C. Baker, P.E.

Maurer-Stutz, Inc.
3116 N. Dries Lane, Suite 100
Peoria, IL 61604, USA
309-693-7615
cell: 563-380-8720
gcbaker@mstutz.com
www.mstutz.com

Planning and design services for livestock production facilities and soil and water conservation practices. Livestock experience includes beef, dairy, swine, horses and poultry facilities. Experience includes site development, feasibility studies, manure handling/storage/treatment, permitting, nutrient management, equipment/material specification, construction observation, land treatment and soil stabilization, and edge of field nutrient reduction practices NRCS project experience.

Initial date of registration: 2014; IL, MO, IA
Available full time; Domestic and International

Brian Blomme, P.E.

ISG
Project Manager + Agricultural Engineer
1725 North Lake Avenue
Storm Lake, IA 50588, USA
712-732-7745
cell: 712-299-4889
brian.blomme@is-grp.com
www.is-grp.com

ISG offers multidisciplinary agricultural drainage expertise from three Iowa offices, helping industry partners balance crop production, water quality, and environmental compliance. Expertise includes the design and construction of edge of field practices including bioreactors, saturated buffers, treatment wetlands, as well as water control structures, alternative tile inlets, surge basins, and more.

Initial Date of Registration: January 14, 2014, IA.
Available Full-Time; Domestic

Bradley J. Bond, P.E.

Project Manager, Curry-Wille & Associates
Consulting Engineers, P.C.
425 S. 2nd Street / PO Box 1732
Ames, IA 50010, USA
515-232-9078
bbond@currywille.com
www.currywille.com

Engineering consultant for various livestock facility designs, manure handling/treatment/storage, vegetative treatment systems for open lot runoff, livestock permitting, research facilities, secondary containment for fertilizer & pesticides, grain handling & storage, and general agricultural consultation. Services include design, facility planning, site selection, site layout, programming, and design for agricultural and commercial sites.

Initial date of registration 2014; IA, TX
Available full-time; Domestic and International

Craig S. Coker

Coker Composting & Consulting
2186 Mountain Pass Road
Troutville, VA 24175, USA
540-874-5168
ccoker@cokercompost.com
www.cokercompost.com

Coker Composting & Consulting (CC&C) is a sole proprietorship consultancy in organics recycling (composting and anaerobic digestion) founded in 2005. CC&C specializes in: facility planning, permitting support, pilot tests, site evaluations, technology assessments, facility design, construction management, equipment evaluations, operations manuals, operator training, and product marketing and sales support.

Available full-time; Domestic and International

William A. Cook, P.E., L.S.

Neosho Engineering & Technology
20475 Udall Road
Stark, KS 66775, USA
620-754-3500

Boundary surveying, topographic surveying, construction staking, land use planning, preliminary planning for water control structures, real estate development, and community planning.

Initial date of registration 1981; KS
Available full-time; Domestic

Ivan Droessler, P.E.

ISG
Principal + Senior Civil Engineer
1725 North Lake Avenue
Storm Lake, IA 50588, USA
712-732-7745
cell: 712-299-1487
ivan.droessler@is-grp.com
www.is-grp.com

ISG specializes in agricultural drainage, Edge of Field practices, wastewater, waste management and facilities. Our innovative drainage projects serve as industry models. Through well-engineered and designed systems and facilities, ISG Ag partners experience expedited environmental approvals, enhanced production, minimized maintenance and repair costs, and a reduced environmental impact.

Initial date of registration 1990; IA
Available full-time; Domestic

Terry L. Feldmann, P.E.

Mauer-Stutz, Inc.
3116 N. Dries Lane, Suite 100
Peoria, IL 61604, USA
309-693-7615
fax: 309-693-7616
tlfeldmann@mstutz.com

Consulting, evaluation, planning, and design services for livestock and poultry production facilities including expansion, site development, feasibility studies, renovation, ventilation and heating, environmental monitoring, field research,

manure handling/ storage/treatment, permitting, nutrient management, odor assessments, equipment/material specifications and quantities. Expert witness testimony. Experience includes agrichemical handling facilities, equine, layers, swine, dairy, turkeys, broilers, and beef cattle facilities.

Initial date of registration 1998; IL, IN, AR, WI
Available full-time; Domestic and International

John A. George, P.E.

Agricultural Engineering Associates, Inc.
1000 Promontory, PO Box 4
Uniontown, KS 66779, USA
800-499-5893
fax: 620-756-4600
john@agengineering.com
www.agengineering.com

AEA provides experienced (40 years), leading edge services to US and International Clients on production and research livestock and poultry facilities and associated environmental systems, permitting, crop production, and renewable energy systems to maximize efficiency, profitability, and environmental compliance. Primary services include complete facility design, environmental permitting, and construction management.

Initial date of registration 1974; KS, AL, AR, CO, GA, IL, IN, IA, MO, MI, MT, NE, NM, NY, NC, OH, OK, OR, PA, SD, TX, WA, WI, WY
Available full-time; Domestic and International

Dale M. Gumz, CSP, P.E.

Inductive Engineering
10805 230th Street
Cadott, WI 54727-5406, USA
715-289-4721
dgumz@centurytel.net
www.inductiveengineering.net

Engineering consultant for agriculture, construction, consumer products, and specialty machines. Forensic and safety services include: accident reconstruction, safety responsibilities, human factors, manufacturing processes, mechanical and electrical, occupational safety, product liability, product and machine design analysis. Experience includes a farm background and safety and design engineering since 1970, manufacturing, safety, and forensic engineering. NCEES, CSP.

Initial date of registration 1975; IL, IA, MO, WI
Available full-time; Domestic and International

Kirk Haverland, P.E.

Larson Engineering, Inc.
2801 E. Enterprise Avenue, Suite 200
Appleton, WI 54913-8559, USA
920-734-9867
fax: 920-482-5732
khaverland@larsonengr.com
www.larsonengr.com

Larson Engineering is a full service engineering firm specializing in planning and design of additions, modifications and new facilities. We understand grain and feed as well as agronomy

Registered Engineers

facilities, and will help you make the best decisions for the type of facility that you need. Licensed in all states.

Initial date of registration 1989 NH; WA, MT, CO, AZ, ND, SD, NE, IA, MO, KS, OK, MN, WI, MI, OH, TN, GA, AL, VA, NC, NY, ME, PA, KY, MD and resources for the remaining states and most of Canada.

Available full-time; Domestic and International

Larry R. Johnson, P.E.

Oakwood Engineering LLC
W7975 Oakwood Lane
Fort Atkinson, WI 53538, USA
920-650-3371
ljohnsonwi@gmail.com

Consulting services for agricultural and construction equipment. Services include product safety program development, safety evaluation of equipment and product documentation, and expert witness litigation support. Litigation experience in personal injury, product performance, contracts, trade dress, patent and trademark issues. Over 30 years experience in operations and engineering management.

Initial date of registration 1974; MI, WI
Available part-time; Domestic and International

Joseph G. "Jake" Martin III, P.E.

JGMIII, Inc.,
Consulting Agricultural Engineers
6024 S.W. 89th Terrace
Gainesville, FL 32608, USA
352-371-4655
jake@dairydesign.com
www.dairydesign.com

Consulting engineering services for complete dairy facility evaluation, layout, and design. Services provided include: site selection and evaluation; preliminary dairy facility layouts; dairy expansion evaluation; layout and design of milking centers, animal housing facilities, animal working areas, feed centers and youngstock facilities. Complete animal waste management system evaluation, layout and design.

Initial date of registration 1984; LA, GA, FL, KS, AZ, IA, VA, TX, KY, OH, SC, NC, TN
Available full-time; Domestic and International

James M. Miller, P.E., PhD

J M Miller Engineering, Inc.
2392 Fuller Court
Ann Arbor, MI 48105, USA
734.662.6822
miller@millerengineering.com
www.millerengineering.com

Agricultural, Chemical, Mechanical, & Forensic Engineers. Expertise Areas: Hay / Grain Harvesting & Storage; Dairy & Food Processing; Tractors & Implements; Guarding / Entanglement; Ingress, Egress, Slips, Trips, and Falls; Chemical Application & Exposures; Warnings, Labeling, & Instruction Manuals; Irrigation, Hydroelectric, & Wind; OSHA, GHS, RCRA, CWA, and other

Compliance.

Sustainable Environmental Consultants
2318 21st Road
Frankfort, KS 66427, USA
515-207-0201
dberges@sustainableenviro.com
www.sustainableenviro.com

Livestock waste management consulting for beef, dairy, swine, and poultry facilities specifically engineering services, agronomy, and regulatory compliance. Common projects include engineering plans for livestock waste control systems, lagoon permeability testing, nutrient management plan development, soil & water sampling, and waste sampling.

Available full-time; Domestic

Jane Bonds, PhD

Bonds Consulting Group LLC
3900 Wasp Street
Panama City Beach, FL 32408, USA
850-532-3900
jasbonds@gmail.com
www.bondsconsulting.net

My consultancy aims to promote the advancement of scientific research, related to the application of public health and crop protection compounds. I am a pesticide application specialist providing project management for field research, expert witness, technical writing and more, please visit my website for a full range of services.

Available full-time; Domestic and International

Nellie J. Brown, M.S., C.I.H.

Director of Workplace Health & Safety Programs
Lead Programs Manager
Cornell University, ILR School
617 Main Street, Suite 300
Buffalo, NY 14203, USA
716-852-1444 ext 111
njb7@cornell.edu
www.ilr.cornell.edu/healthsafety

Nellie Brown is a certified industrial hygienist, providing health and safety training and technical assistance. She developed a process failure and hazard assessment protocol for anaerobic digesters used for processing manure and generating electricity on dairy farms. Nellie serves on an ASABE committee developing a standard on manure pit ventilation.

Available part-time

Industrial & Environmental Concepts Covers & Liners

IEC
21390 Heywood Ave.
Lakeville, MN 55044, USA
952-829-0731
anderson@ieccovers.com
www.ieccovers.com

IEC is a turn-key provider of covers & liners. We design, fabricate & install covers & liners on wastewater basins for large dairy & hog producers in addition to industrial and municipal projects. Anaerobic covers are our specialty. We work closely with engineers & clients using tanks and lagoons for projects involving energy, bio-solids, rainwater or process treatment.

WHAT A CONSULTING ENGINEER CAN DO FOR YOU

Because of their broad educational background, consulting agricultural engineers are a source of information on a wide variety of topics and can provide help with diverse technical problems. The design and management services agricultural engineers provide can be invaluable to small businesses without their own engineering departments, to agricultural producers and similar enterprises, and to large businesses or governmental agencies that want to supplement their in-house engineering departments. Consultants also can provide service to lending institutions, law firms, local units of government and planning boards, or to individuals that need expert witnesses or technical analysis.

What is a Consulting Engineer?

A consulting engineer is an independent contractor retained to work on a project-by-project basis. A consulting engineer may work alone or as a member of a consulting firm. Consulting engineers can provide a high level of technical expertise, direct personal service, and highly technical advice. Many consulting engineers are licensed professional engineers in their state of residence and must qualify to obtain licensure in other states where they practice or provide services.

What Expertise Does a Consulting Agricultural Engineer Have?

Agricultural engineers have a diverse educational background that makes them knowledgeable about many subjects; additionally, they usually focus their expertise on one of the following areas:

- Applied Sciences & Engineering
- Machinery Systems
- Education, Outreach & Professional Development
- Natural Resources & Environmental Systems
- Energy Systems
- Plant, Animal & Facility Systems
- Ergonomics Safety & Health
- Processing Systems
- Information Technology, Sensors & Control Systems

CODE OF ETHICS OF ENGINEERS

The Fundamental Code of Principles

Engineers uphold and advance the integrity, honor and dignity of the engineering profession by:

- I. using their knowledge and skill for the enhancement of human welfare;
- II. being honest and impartial, and serving with fidelity the public, their employers and clients;
- III. striving to increase the competence and prestige of the engineering profession; and
- IV. supporting the professional and technical societies of their disciplines.

The Fundamental Canons

1. Engineers shall hold paramount the safety, health and welfare of the public in the performance of their professional duties.
2. Engineers shall perform services only in the areas of their competence.
3. Engineers shall issue public statements only in an objective and truthful manner.
4. Engineers shall act in professional matters for each employer or client as faithful agents or trustees, and shall avoid conflicts of interest.
5. Engineers shall build their professional reputation on the merit of their services and shall not compete unfairly with others.
6. Engineers shall act in such a manner as to uphold and enhance the honor, integrity and dignity of the profession.
7. Engineers shall continue their professional development throughout their careers and shall provide opportunities for the professional development of those engineers under their supervision.
